Wooden hair brush

Detangle hair with ease.
Works great on wet or dry hair. Perfect for men, women & kids. For thick, curly or straight hair. Great for hair extensions & wigs.

The natural wood produces a smooth comb that glides effortlessly without static, preventing unruly hair and distributing natural oils for richer, shinier hair.

The natural wood comb is believed to prompt blood circulation in the scalp and reduce the dandruff, hair loss, itching, headache, and delay the development of grey hair.

Its natural texture and color are almost different for each comb.

Hair roller

Every girl needs a set of hair rollers in her hairstyling arsenal. Bouncy, billowy waves are better achieved with hair rollers, and they're better for the health of your hair since heat is damaging. This kind of hair roller is easy to use without taking hair from others. Furthermore, it won't hurt your hair and cause yellowing, bifurcate, dullness, so it is very popular with girls.

HOW TO USE Front of Neck
After you have shaved each side of the neck to form your lines, you will have a V shape left in the front. Simply shave off the V and you will have your perfect neck line. You can check it with the curvature shown in the illustration by lining each end up with parts.
Shaping the Goatee
Place The Beard Shaper into the position of the diagram. Once you have the tool into position, simply shave over the outer edge of the tool. This works best when you have a minimal amount of hair on the cheeks if you are using a razor. You can use clipper to achieve this as well if you have long hair to cut. Repeat this action on the other side to get a nice looking goatee.

Cheek Line To create symmetry, place The Beard Shaper into the position as shown in the diagram. Use a leveling marking and line up the inner part of the tool with the inner part of your side burn closest to your eyes. When you get the tool into this position, pick a target spot to line the end up at your mustache. When you have it in the final position that you want, press to your face with medium pressure. Shave or clip over the tool's inner curved edge and onto your face lightly to achieve a crisp top line.
slightly tilt the head sideways in the opposite direction of the side you are working on. Slide The Beard Shaper down your jaw until your neck stops the tool. Once you have it where you want it, begin shaving over the tool, repeat this process on the other side of your face and then down the remaining V.
NOTE: ADJUST ANGLE OF TOOL TO CREATE LESS OR MORE OF A CURVE
