4 IN 1 HAIR BRUSH SET WITH DETACHABLE BARRELS

With 4 Detachable Curl Barrels (X-Small 1" barrels, Small 1.34" barrels, Medium 1.73" barrels, Large 2.08" barrels)
Includes 4 detachable, lightweight barrels and an universal handle with special curved design, features an easy release button and fits for all sizes of Glammie Curl barrels to create perfect combination for your unique hairstyle. Dry, style and set all-in-1 step as the detachable handle allows the barrels to remain in your hair to cool, set the curls, and eliminates the need to blast hair with cool air.

ASSEMBLING INSTRUCTION:

DETACHABLE HAIR BRUSH

Build Your Own Value Set

It allows you create a set just right for you by mixing and matching sizes and sets. The Value Set allows you to purchase one Full Set of any size along with one Add On of any size for less - giving you 4 rollers and a universal handle. It is the detachable round brush styling tool that allows you to achieve a salon quality blow-out at home. It's easy to use as a conventional round brush and produces results consistent with today's hottest hairstyle trends - body, volume and loose flowing curls. Unlike other tools that require you to dry before styling, it allows you to dry and style all in one step. With it, you can achieve the look you need by the time your hair is dry and cool. With a detachable handle that turns brush heads into rollers, it allows each section of hair to cool and set while you continue styling.

Heat is what alters the molecular bonds in your hair and permits a temporary change in shape (straight to curled), but it is the cooling of the hair that allows the new shape (the curl) to be retained. After drying a section of hair with your blow dryer, simply detach the brush barrel and allow your hair to cool while you attach the handle to the next brush barrel and move on to the next section of hair.

HOW TO USE: Front of Neck: After you have shaved each side of the neck to form your lines, you will have a V shape left in the front. Simply shave off the V and you will have your perfect neck line. You can check it with the curvature shown in the illustration by bring a comb over your neck.
Shaping the Cheeks: Place the Beard Shaper into the position of the diagram. Once you have the tool in the position, simply stroke over the outer edge of the tool. This works best when you have a minimal amount of hair on the cheeks. If you are using a razor, you can use a "clipper" to achieve this as well if you have long hair to cut. Repeat this step on the other side to get a nice looking finish.

Check Line: To create symmetry, place The Beard Shaper into the position as shown in the diagram. Use a leveling marking tool line up the inner part of the tool with the inner part of your side burn closest to your eyes. When you get the tool into the position, pick a target spot to line the end up at your forehead. When you have it in the final position that you want, press to your face with medium pressure. Shave or clip over the tool in order to shave and clip your face properly to achieve a nice top line.
NOTE: ADJUST ANGLE OF TOOL TO CREATE LESS OR MORE OF A CURVE

Hair Scissors

STRAIGHT SCISSORS

Coordinate with the bangs artifact to cut the bangs, hair end, etc

It be used with professional hair stylist. Suitable for in the comprehensive tailoring (dry, wet hair, men and women all can use), easy to deal with the haircut, avoid the inconvenience of frequent tool changing, work more efficient.

TEETH SCISSORS

Layer and soften thick hair without changing its overall length.

sharp and durable, comfortable hand feeling. The edge line of good scissors is exquisite and flowing, the thinner the better. The inner between moving blade and still blade is groove, the cutter point rubs throughout the edge line all the time. The uniform and smooth of the edge line to ensure the smooth flow of the blades. The poor workmanship scissors of edge line is not the same width so the friction is different, thus leading to the increase of wear and tear. Then the scissors will be dull and clip hair. So its a important technical index that scissors have uniform and smooth edge line.

MICRO-STONE Curlers

Instructions for Use

Patent pending throughout the world.

- Express setting**
Set the hair using the "Micro-Stone" Curlers as per usual. The time under the dryer will be reduced by half (about 15-20 minutes).
- New Service**
1. Choose your curlers from the 3 sizes, put your "Micro-Stone" Curlers in the microwave over without the plastic pins in a plastic container.
2. Set to medium heat (about 350 Watts).
3. Heat in the following way
20 Curlers - 5 minutes
12 Curlers - 1 minute
6 Curlers - 1 minute
3 Curlers - 15 Seconds

Attention
Due to different wattages on microwave ovens, you will need to adjust the heating time to obtain optimum results. Proceed with caution the first time as excessive heat can damage and deform your "Micro-Stone" Curlers.
4. Commence rolling into dry or damp hair.
5. Fix the curlers with plastic pins.
6. After several minutes (min. 2 minutes, max. 10 minutes) you will have des machines with a beautiful and long lasting curl without having had to use an extra heating source.
