BEARD COMB SHAPER

HOW TO USE Front of Neck

After you have shaved each side of the neck to form your lines, you will have a V shape left in the front. Simply shave off the V and you will have your perfect neck line. You can check it with the curvature shown in the illustration by lining each end up with parts.

Shaping the Goatee

Place The Beard Shaper into the position of the diagram, Once you have the tool into position, simply shave over the outer edge of the tool. This works best when you have a minimal amount of hair on the cheeks if you are using a razor. You can use clipper^h to achieve this as well if you have long hair to cut. Repeat this acy ion on the other side to get a nice looking goatee.

Hair Scissors

STRAIGHT SCISSORS

Coordinate with the bangs artifact to cut the bangs, hair end, etc

It be used with professional hair stylist.
Suitable for in the comprehensive tailoring (dry, wet hair, men and women all can use), easy to deal with the haircut, avoid the inconvenience of frequent tool changing, work more efficient.

TEETH SCISSORS

Layer and soften thick hair without changing its overall length.

sharp and durable, comfortable hand feeling. The edge line of good scissors is exquisite and flowing, the thinner the better. The inner between moving blade and still blade is groove, the cutter point rubs throughout the edge line all the time. The uniform and smooth of the edge line to ensure the smooth flow of the blades. The poor workmanship scissors of edge line is not the same width so the friction is different, thus leading to the increase of wear and tear. Then the scissors will be dull and clip hair. So its a important technical index that scissors have uniform and smooth edge line.

MICRO-STONE Curlers

Instructions for Use

Patent pending throughout the world.

1. Express setting
Set the hair using the "Micro-Stone" Curlers as per usual. The time under the dryer will be reduced by half (about 15-20 minutes).

2. New Service
1. Choose your curlers from the 3 sizes, put your "Micro-Stone" Curlers in the microwave oven without the plastic pins in a plastic container.
2. Set to medium heat (about 350 Watts).
3. Heat in the following way
20 Curlers-2, 5 minutes
12 Curlers-1 minute
3 Curlers-15 Seconds

Attention:
Due to different wattages on microwave ovens, you will need to adjust the heating time to obtain optimum results. Proceed with caution the first time as excessive heat can damage and deform your "Micro-Stones".
4. Commence rolling into dry or damp hair.
5. Fix the curlers with plastic pins.
6. After several minutes (min. 2 minutes, max. 10 minutes) you will have des machines with a beautiful and long lasting curl without having had to use an extra heating source.

Wig

Just like your own hair, human hair will accumulate residue through normal wear. However, you do not need to wash the hair every day to keep consistent results. The hair should be washed as infrequently as possible or when you notice that the hair appears dull or acquires an odor. If you are wearing the hair all day, every day, you can wash them after 3 -4 times wearing.
