It eases the irritation on the scalp with the ball tips. It just makes appropriate amount of stimulation to your scalp with soft combing. It helps to maintain your hairstyle. The teeth of a comb follows the curvature of the hair. So it reduces the friction with the hair. It completes your styling and soft hair. An amazing new styling concept. Detachable Ceramic brush head to create Curl, Volume, Shine and Smoothness.

SALON PROFESSIONAL HAIR BRUSH

Combing your hair can be enjoyable again, say goodbye to all uncomfortable, make it quick and easy to save time. The ergonomic handle design is easy to grasp, and the elastic air cushion fits the scalp, which can slightly relax, promote blood circulation in the head, and help the hair grow naturally. This brush works perfectly with straightened, wavy, curly, thin hair. It works great for dry hair and is perfect for men and women. It can effectively smooth frizzy hair and make it shine.

WOODEN HAIR BRUSH

The natural wood produces a smooth comb that glides effortlessly without static, preventing waxy hair and distributing natural oils for richer, shinier hair.

The natural wood comb is believed to promote blood circulation in the scalp and reduce the dandruff, hair loss, itching, headache, and delay the development of grey hair.

Its natural texture and color are almost different for each comb.

BEARD brush

Best for shaving or dusting. Gently exfoliates the skin. Effectively increase the bubble of shaving cream, bringing comfortable shaving experience. Excellent product quality, that's solidly built. The densely filled brush head is best for holding and distributing lather and will help soften and raise beards while gently exfoliating skin in preparation for a close, comfortable shave.

BEARD COMB SHAPER

HOW TO USE Front of Neck

After you have shaved each side of the neck to form your lines, you will have a V shape left in the front. Simply shave off the V and you will have your perfect neck line. You can check it with the curvature shown in the illustration by lining each end up with parts.

Shaping the Goatee

Place The Beard Shaper into the position of the diagram, Once you have the tool into position, simply shave over the outer edge of the tool. This works best when you have a minimal amount of hair on the cheeks if you are using a razor. You can use clipper* to achieve this as well if you have long hair to cut. Repeat this acy ion on the other side to get a nice looking goatee.

HAIR SCISSORS

STRAIGHT SCISSORS

Coordinate with the bangs artifact to

It be used with professional hair stylist. Suitable for in the comprehensive tailoring (dry, wet hair, men and women all can use), easy to deal with the haircut, avoid the inconvenience of frequent tool changing, work more efficient.

TEETH SCISSORS

Layer and soften thick hair without changing its overall

sharp and durable, comfortable hand feeling. The edge line of good scissors is exquisite and flowing, the thinner the better. The inner between moving blade and still blade is groove, the cutter point rubs throughout the edge line all the time. The uniform and smooth of the edge line to ensure the smooth flow of the blades. The poor workmanship scissors of edge line is not the same width so the friction is different, thus leading to the increase of wear and tear. Then the scissors will be dull and clip hair. So its a important technical index that scissors have uniform and smooth edge line.

MICRO-STONE Curlers

Instructions for Use

Patent pending throughout the world.

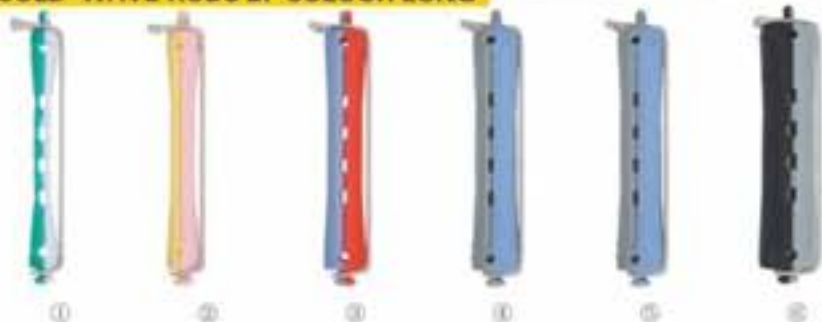

1. Express warning: Do not use the "Micro-Stone" Curlers on wet hair. The hair under the curler will be relaxed by heat (about 10-20 minutes).
2. How to use:
 1. Choose your curler from the 3 sizes, and your "Micro-Stone" Curlers in the microwave oven/heat the plastic grip in a plastic container.
 2. Set to medium heat (about 100 Watts).
 3. Heat to the following use:
 - 20 Curlers 2 - 5 minutes
 - 12 Curlers 3 - 5 minutes
 - 4 Curlers 4 minutes
 - 3 Curlers 15 seconds

Attention: Do not disassemble curlers on microwave ovens, you will need to adjust the heating time to obtain optimum results. Proceed with caution the first time an excessive heat can damage and deform your "Micro-Stone" Curlers. Do not use the curlers with plastic grips. After several intervals (over 2 minutes), heat 10 minutes you will have the curler with a beautiful and long lasting curl without having hair to use on each heating interval.

Wig

Just like your own hair, human hair will accumulate residue through normal wear. However, you do not need to wash the hair every day to keep consistent results. The hair should be washed as infrequently as possible or when you notice that the hair appears dull or acquires an odor. If you are wearing the hair all day, every day, you can wash them after 3-4 times wearing.

WIG

1. Soft, clean, healthy hair end , no lice or knit
2. No shedding , No tangling
3. Can iron and dye, bleach
4. The life time is 2 years
